DECLARATION UNDER 37 CFR §1.131

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

We, Darrell Reginald May and Alain R. Gagne, hereby  
declare that:

1. We are the joint inventors for the above-  
identified patent application (the "present application").

2. We conceived the invention recited in the claims  
of the present application prior to January 26, 2004, and due  
diligence was exercised from a time prior to January 26, 2004 to  
the filing of the present application, as demonstrated by the  
following:

In re Patent Application of:

**MAY ET AL.**

Serial No. 10/790,479

Filing Date: **MARCH 1, 2004**

---

a) prior to January 26, 2004, we had communicated all of the details of the invention to John F. Woodson, II, a patent attorney with the law firm of Allen, Dyer, Doppelt, Milbrath & Gilchrist, P.A. ("Allen Dyer"), patent counsel for Assignee Research In Motion Limited ("RIM");

b) on information and belief, Attorney Woodson began preparing a draft of the present application prior to January 26, 2004;

c) the completed draft patent application (bearing attorney docket number 85002) was forwarded to Darrell May's attention for distribution and review by each of us on February 2, 2004, as shown in attached Exhibit 1;

d) Attorney Woodson sent a reminder inquiring as to any comments we might have had on the draft application on February 18, 2004, and Darrell May responded to Attorney Woodson on the same day that the draft application was complete and accurate as written and ready for filing without change, as shown in attached Exhibit 2 (attached hereto);

In re Patent Application of:

**MAY ET AL.**

Serial No. 10/790,479

Filing Date: **MARCH 1, 2004**

---

e) Christopher F. Regan, another patent attorney with Allen Dyer, forwarded drafts of the Declaration and Assignment documents to be submitted in this application to us on February 20, 2004 for our review and signature in view of the final draft of the patent application (which was the same as the original draft forwarded to us on February 2, 2004, since no changes to the draft were made), as shown in attached Exhibit 3;

f) Attorney Regan also forwarded Powers of Attorney documents to us for execution on February 25, 2004, as shown in attached Exhibit 4;

g) Executed copies of the Declaration, Power of Attorney and Assignment documents were faxed to Attorney Regan on February 25, 2004 and February 26, 2004, as shown in attached Exhibit 5; and

h) upon receipt of formal filing authorization from RIM's Intellectual Property Department, Attorney Regan filed the present application on March 1, 2004, as shown by the USPTO Filing Receipt mailed May 21, 2004, which is attached hereto Exhibit 6.

**Subject:** RIM Ref. No. ID-399 (Our File Nos. 80211 and 85002)

Dear Darrell:

Attached for yours and your co-inventor's review and comments are initial draft patent applications directed to the above-identified invention in .zip format. Please note that the invention has been divided into two separate applications based upon our recent instructions from RIM's IP department. The first application (our file no. 80211) is directed to the feature of selecting audio filter parameters from the handheld device, while the second application (our file no. 85002) is directed to the automatic audio mode feature. By copy of this email, we ask that Robert Liang provide us with a new RIM ID number for the second application at his convenience.

Please note that the attached .zip file is password protected. Also, the drawings and several portions of the applications are common to both. For your convenience, the common portions are not reproduced in the second application. We will forward you the password to open the attachment in a separate email.

It is essential that the patent applications, as filed, be technically accurate and complete, and that the applications set forth the best mode for carrying out the invention, since new matter may not be added to the descriptive portion after filing. We therefore ask that you carefully review the drafts for technical accuracy and completeness, and advise us of any suggested changes or corrections. Your changes and suggestions will be carefully considered in the preparation of the final drafts, which will be presented to you for your review and execution prior to filing.

We would also like to point out that the inventor is required to make a Declaration when the application is filed in the U.S. Patent and Trademark Office, acknowledging a duty to disclose information of which he is aware and which may be considered to be material to the examination of the application. Such information may possibly include devices, products, publications, etc. which are similar to the invention and which were publicly known before the invention, and it

may also include any public disclosure, commercial use, or offer of sale of the invention more than one year prior to the filing date of your application.

If you are aware of any such information, it is vitally important that it be brought to our attention. We can then make a determination as to whether the information should be brought to the attention of the Patent and Trademark Office under the applicable rules.

We would also like to confirm that the inventorship information we have for the applications is correct. Currently, we have yourself and Alain Gagne listed as co-inventors. In the U.S., an inventor is defined as one who contributes (either independently or jointly) to the conception of the subject matter of any one of the claims in a patent application. Everyone who meets this definition MUST be listed as an inventor on the application. Conversely, anyone who does not meet this definition CANNOT be listed as an inventor. Accordingly, please keep this in mind as you review the claims of the applications, and let us know if you believe that any changes in inventorship might be required so that we can discuss this with you.

If you should have any questions regarding the information outlined above, please feel free to discuss them with us. We look forward to receiving your comments on the application.

Best regards.

Dear Darrell:

We are just checking to see if you have had an opportunity to review the above-noted patent application drafts. Please note that RIM has instructed us that these applications are to be filed no later than the end of February. Accordingly, please provide your comments to us as soon as possible. Thanks again for your assistance.

Darrell,

Enclosed are the Declaration and Assignment documents for your review. The final draft of the patent application and the password were previously provided to you by my colleague, John F. Woodson, on February 2, 2004. Please sign and date both documents and return the entire documents to us via facsimile number 407-841-2343. By copy of this email, I am also requesting that Alain Gagne sign the Declaration and Assignment documents. Please also return the original to us via regular U.S. mail.

We will file the application with the U.S. Patent and Trademark Office immediately upon receipt of the executed Declaration and Assignment documents.

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184.  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
